TOPCOAT SEALER

Apply the final coat of sealer after your floor is installed. It protects the surface of the tile with scratch resistance, UV protection, removes scuffs, seals the grout, and provides your desired sheen level.

Keep chemicals compatible with our presealed tiles by choosing one of these topcoat sealers.

TerraNano Sealer

- \$219/Gallon, 10-15 year lifespan
- Extra Low Gloss or Gloss Finishes Available
- Environmentally-friendly, Low VOC/Odor
- Very high abrasion resistance
- 400 sf coverage per gallon (approximately)

Crest Sealer (most popular)

- \$139/Gallon, 3-5 year lifespan
- Low Odor
- Medium abrasion resistance
- 400 sf coverage per gallon (approximately)

THINSET

We offer high-quality thinset for your Saltillo Tile installation. It's important to use proper thinset with handmade Saltillo tile to avoid unnecessary issues in the future. In most orders, thinset can ship with your tile at no extra shipping cost.

Crest Gran Formato Thinset

- \$30/bag
- 30-35 sf coverage per bag
- Overcomes irregularities in tile thickness
- Suitable on a concrete slab or backer-board substrates

CRACK PREVENTION & WATERPROOFING MEMBRANE

Apply crack prevention membrane to existing hairline cracks (on a slab) or to cement board joints. Full coverage application is recommended on new slabs.

This product doubles as a waterproofing membrane. The membrane is needed as full coverage in wet or outdoor areas.

Crest 2510 Acrylic Membrane

- \$95 per 1-gallon, 45 sf coverage (approximately)
- \$230 per 3.5-gallon, 135 sf coverage (approximately)
- Apply at 30 mils wet film thickness
